

MONEY

is the lever by which the whole world may be moved.

Many a man, who, in extremity, has been refused a five dollar loan, by a "friend" has sworn never to be dollarless again.

The only way a man can do that is to save money. Begin saving now—with us. We pay 4 1-2 per cent.

CONSERVATION WORK OF WOMEN

The third number of the Hawaiian Forester and Agriculturist is out, containing an account of the conservation work of the women of Hawaii, and of the joint session of the Senate and House of Representatives of the Legislature of Hawaii, to listen to addresses on the subject of Conservation by the Governor of the Territory, members of the Territorial Conservation Commission, the Federal Judge and the director of the Hawaii Experiment Station. This meeting indicates the growing sense of the importance of the conservation work to these islands.

Letters have been received by the vice president for Hawaii of the Woman's National Rivers and Harbors Congress from the Sierra Club of California, of which Mr. John Muir is president, asking cooperation in their effort to preserve the Yosemite National Park from ruthless spoliation.

Central Union delights to welcome to

any and all of its services those who are not connected with other churches of the city. Visitors and strangers in the city especially invited.

The Matson Navigation Company's steamer Hilonian, which sails from this city for San Francisco on Tuesday, will carry a full list of passengers and all the freight which her hold can contain. The strike at the Honolulu plantation has held up the sugar from that source to a slight degree, but this has not been an unalloyed trouble. It has meant that the Hilonian has more room in which to carry pineapples. On the present trip the Matson vessel will take 18,000 cases of pineapples to San Francisco as well as 1525 tons of refined and 756 tons of raw sugar. Three thousand bunches of bananas and 134 tons of rice will complete her cargo.

An ecclesiastical council meets in Honolulu today for completing the organization of a Union church there. Public services will be held tomorrow, Rev. Doremus Scudder, D. D., of Honolulu to preach the sermon. Rev. W. B. Oleson and Rev. R. B. Dodge will assist at the services.

An Ideal Touring Car

Franklin Model D

PRACTICALLY NO TIRE TROUBLE

With its light-weight and easy-riding strong construction Model D is aptly termed the ideal of all automobiles for family use. Weighing as it does a third less than the average water-cooled automobile of smaller capacity, it gives minimum tire and operating expense. It most nearly fulfills universal requirements. Its compactness, ability, handsome body, large wheels, and the ease with which it handles place it in a class by itself—an ideal touring-car, not too large for city and business use, light-weight, refined and easy-riding.

Franklin Model D, \$2800. Four cylinder, 28 horse-power, five-passenger touring-car. 36-inch wheels, same size as used on the best water-cooled automobiles weighing 1000 pounds more. Aluminum body on steel angle frame—the strongest and lightest automobile body made. Three large powerful brakes acting on transmission and rear wheels, selective type transmission, positive gear-driven oiler, Bosch high tension magneto.
